

TALKBACK WITH JON FAINE

MELBOURNE RADIO ABC 774

2nd September 2016

And we've had an update from Jan & John in Lorne St Caulfield about the level crossing removal process.

They were knocked back and they'd appealed and the Project Director Brett Summers said on the radio this morning that they were in contact with John and Jan about their situation.

And we've asked John what he makes of that and he says we've never heard from Brett Summers or anyone from the Level Crossing Removal Authority since we lodged an appeal on the 8 August and that is therefore he says, not true and they are very eager for what Mr Summers said on the radio this morning to actually take place, so we will follow through on this and if necessary we'll follow it through to next week, to next month to the month after and so on, for as long as it takes to make sure that people are looked after in the way that the Premier and the Treasurer assured us was going to happen
